

Equal Opportunities Policy

The Nursery is committed to providing equal opportunities to all adults, children and families. We recognise that there are many different types of families who all can successfully love and care for their children.

We also recognise the changing face of our society and the need to promote an environment where we accept all people for what they are and live in harmony.

All children attending the nursery, regardless of gender, will be offered the same opportunities for their social, physical and intellectual development. Children of different ethnic backgrounds will be able to find parts of their culture reflected and supported in the nursery equipment and books. Sunnybank Nursery endeavours to actively encourage children to value and respect other by role modelling this image.

At Sunnybank we are committed to promoting British Values. We value the diverse ethnic backgrounds of all our children and families and celebrate a variety of events and occasions. We promote values in many ways; by teaching children right from wrong at an early age, by teaching and encouraging decision making (PSE) and democracy, by teaching respect for each others views and values, talking about our feelings and learning about sharing and taking turns during play. The Nursery is focused on our Mission Statement and feel this reflects British Values.
